# Contents of the National JTPA Study Public Use Data CD

1README_FIRST – CD navigation document
Data_summary
CDContents

## DATA

- JTPA data sets, provided in three formats: SAS Export files (.xpt), SAS for Windows files (.sd2 or .sd7), and Stata files (.dta). The datasets are located in the following data directories: analysis, enpfup, expafdc, expbif, expfdst, expfup1, expfup2, expmon, expuiw, irs, lbs, replacement_files, UI, and SSA. The root contains the datasets in Stata and SAS for Windows formats, while the "Upjohn Institute Created Files" subfolder contains the datasets in SAS export format. All files are zipped.
- Dataset contents and variable means are located in the "Upjohn Institute Created Files\Contents & Means" subfolder within each data directory.

## PROGRAMS

- Import.sas – program to import SAS export file into the user's SAS system

## DOCUMENTATION

- National JTPA Study public use files: abt_njs_publicuse.doc and abt_njs_publicuse_addendum_032503.doc
- Codebooks for individual datasets are contained in the following subfolders of the "Documentation" folder: analysis, enpfup, expbif, expfup1, expfup2, expmon, irs
- Additional data documentation: enp_sample_design_031003.pdf, njs_cd_contents_032503.doc, enp_screener.pdf

## REPORTS

- Doolittle, Fred, et al. "A Summary of the Design and Implementation of the National JTPA Study." New York, NY, and Bethesda, MD: Manpower Demonstration Research Corporation, August 1993: summary.pdf

- "The National JTPA Study: Title II-A Impacts on Earnings and Employment at 18 Months" Research and Evaluation Report Series 93-C. Washington, DC: US Department of Labor, 1993: impact18.pdf

- Orr, Larry L., et al. "The National JTPA Study: Impacts, Benefits and Costs of Title II-A." Bethesda, MD: Abt Associates, March 1994: NJS_final_report.pdf

- Executive summary from the Doolittle's summary report: execsumm.pdf

INSTALL

- Installation of Adobe Acrobat Reader
